

Our 24 x 7 feature rich, Anytime Audio Conferencing service is perfect for on-the-fly calls that can be set up anytime, day or night. These are ideal for small intra-office collaborations or anytime you need to get a group of people together live on the phone. No pre-scheduling or operator involvement – you have complete control. You simply dial a toll free number, enter your conference ID and your call is up and running! Best of all, BeaconLive uses state of the art technology that provides the highest quality in the industry with LOW rates and NO contracts & set up fees!

Easy to Use

To Start a Conference:

1. Inform participants of date and time of call
2. Give participants the toll-free dial-in number and the Conference ID
3. At time of call, dial your toll-free number and enter your conference ID followed by #
4. Press * to start a conference
5. Enter your PIN followed by #

Live Conference Viewer

All of the features you have on the phone can now be managed through the web - includes viewing conference attendees, mute / un-mute participants, dial out to add attendees, lock / un-lock conference, call recording and more!

The screenshot shows the 'Beacon LIVE LIVE CONFERENCE VIEWER' interface. At the top, it displays 'Conference ID: 7777' and 'Total Participants: 2'. Below this are control buttons for 'Entry Chime', 'Exit Chime', 'Lock Conference', and 'End Conference', along with an 'Enter Recording Number' field. A table lists participants with columns for 'MOD', 'PHONE #', 'NAME', 'ACCESS NUMBER', 'CONNECT TIME', 'MUTE', 'HANG UP', 'TALKER', and 'INVITE'. Two participants are listed: one with phone number 7811234567 and another with 9411234567. The second participant is checked in the 'MOD' column. A 'Call' button is visible next to the second participant's row. At the bottom, it says 'COPYRIGHT BEACON COMMUNICATION SERVICES 2007. ALL RIGHTS RESERVED.'

Access

Toll-Free BeaconLive will provide a Toll Free access number for the Leader and participants to join the call without assistance from an operator.

Standard Features

Roll Call Conference Leaders are provided the ability to request an audible list of participants active in the call. The names played during roll call are the participant names recorded prior to joining the conference.

Lock/Un-Lock Conference Conference Leaders may lock the call to prevent uninvited participants from joining or may unlock the conference to allow additional participants to be included.

Mute/Un-Mute Conference Conference Leaders are provided with the option to mute or un-mute all or individual participants.

Hold/Off-Hold Conference Leaders can place an individual participant on hold and take them off hold.

Disconnect Participant Conference Leaders may choose to disconnect the entire conference call or disconnect individual participants.

Operator Assistance Operator assistance is available to Conference Leaders during the call.

Premium Features

Add Participant Leader can make outbound calls to add additional participants during the call.

Record/Retrieve Call Leader can record conference call for playback at a later time.

MeetingMagnet Share presentations or live applications with participants over a web connection.
