BeaconLive

CME Solutions Healthcare Industry Professionals Trust

Our vision is to build a bridge between Continuing Medical Education professionals and their target audience. To carry out this mission, our BeaconLive team offers a customizable content delivery platform to meet the pre-, live- and post-presentation needs of the CME and medical marketing industries. As the CME platform for many state medical associations and professional CME providers, we understand the importance of a state-of-the-art, flawlessly executed program. **No downloads. No plug-ins. No hassle.**

We believe that effective communication between professionals is the key to successful learning and collaboration. Our expert Account Managers, Event Producers and Live Moderators are trained in managing the entire process of your event. Plus, BeaconLive's full-service support team is dedicated to taking the tedious work off your hands by streamlining the accreditation of your programming through one of our accreditation partners, building integrated registration, and facilitating your live presentation, post-event evaluations, online examinations, grading and certificate delivery. Contact us today to receive a free guided tour with one of our technology specialists!

“We are highly satisfied with our relationship with BeaconLive. The services they provide are topnotch and the customer service is excellent. They understand the nature of our needs, like the components of Accredited Continuing Medical Education, and work to help us keep both quality and compliance at a high level.”

– Frank C. Berry, CCMEP

Did You Know that BeaconLive...

- Is partnered with many of the healthcare industry's leading medical associations, state medical societies and professional CME providers?
- Can verify attendee participation, deliver customized certificates, administer and grade final exams, and post event evaluations?
- Can assist you in getting your content accredited?
- Has successfully delivered over 50,000 flawless events using our proprietary, browser-based platform?

BeaconLive Services

Webinars

Partner with our dedicated Event Services team – or use our self-managed solutions – to design and deliver your CME event to an audience around the world. Our platform allows you to deliver professional presentations using streaming audio and video playback, webcam integration, surveys and polls, screen sharing, participant chat and more!

Webcasts

Transform your in-person CME event into an online affair for a broader audience. Whether you need a videographer and webcast technician on site, or you want to stream the event using our browser-based webcasting platform, BeaconLive can create a unique solution for you.

OnDemand Content

Following the delivery of your event, we'll help you create a professionally edited video file to share on your website. Plus, you can repurpose all of your content by placing it in your branded media library for future viewings.

Registration Services

When you utilize BeaconLive's fully customizable registration services, your office can take advantage of our ability to deliver your email confirmations, reminders, handout distribution and certificate delivery, along with full e-commerce capabilities for your registrants.

Email Promotion

When you utilize BeaconLive's email broadcasting services, you'll also have the assistance of our Event Services team to design and develop an email template and campaign to promote your upcoming event.
